Just when the strike shall be called

the unions with the exception of the  
machinists have voted to pay strike  
benefits.

Watch Stars and Tides

SAN FRANCISCO, Sept. 8.—Plans  
for the building of the largest observa-  
tory in the world, on top of Mount  
Tamalpais, have been completed by  
R. C. Runyon, president of the Mount  
Tamalpais Railroad.

The observatory is to be endowed  
by private capital, and more than  
\$100,000 is to be expended for instru-  
ments alone. The names of the men  
who will provide the foundation fund  
for the building and its equipment  
will be announced soon by Runyon.

The Mount Tamalpais observatory  
is to have the largest reflector tele-  
scope in the world, an auxiliary tele-  
scope, a Weichert seismograph, a  
spectrograph, a spectro-heliograph  
and a battery of special cameras for  
general observation.

Astronomical weather and tide ob-  
servations are to be made the special  
feature of the work of the observa-  
tory.

roads, also made by the state board,  
amounting to \$141,166,891.

The operative and railroad assess-  
ments made by the State Board of  
Equalization to determine taxes for  
state purposes total \$377,251,636.

## 30 Days In Jail For President of Street Car Co.

30 DAYS  
SEATTLE, Wash., Sept. 8.—  
William R. Crawford, president of  
the Seattle, Renton and Southern  
Railway today stands sentenced to  
a term of thirty days in the  
county jail by Justice Fred C.  
Brown for violating the public  
utilities law requiring the street  
car companies to carry passen-  
gers for only a nickel fare within  
the incorporated limits of any  
city. In passing the sentence,  
Judge Brown declared that to  
merely impose a fine would make  
farce of the law.

"A fine would mean nothing to  
a wealthy corporation," said  
Judge Brown. "To make the law  
efficient, a jail sentence ought to  
be imposed. Punishment should  
be such as to prevent a recur-  
rence of the offense."

After the law was passed, said  
Judge Brown, "To make the law  
efficient, a jail sentence ought to  
be imposed. Punishment should  
be such as to prevent a recur-  
rence of the offense."

LITTLE ROCK, Ark., Sept. 8.—  
The country-wide fears that Earl Gil-

hang, which resulted in Governor  
Danaghey being deluged under a flood  
of letters, telegrams and petitions of  
protest, were declared groundless  
here yesterday. The case has been  
appealed to the supreme court, and a  
decision cannot be expected for a

### RECENTLY BURIED BODY OF MAN FOUND IN BAY

Husband Asserts He Has Been  
in France; Query: What to  
Do With Body Buried?

SAN FRANCISCO, Sept. 8.—Mrs.  
George Weber was given a severe  
shock today, believing that her hus-  
band had arisen from the dead, when  
he returned home after she had iden-  
tified a decomposed body taken from  
the bay and buried it under the pre-  
sumption that it was that of her hus-  
band.

Weber, who is a painter, disappear-  
ed on July 8, and since then has been  
in a trance. He returned home today  
fully recovered mentally, but could  
not explain his whereabouts. Mrs.  
Weber sank in a stupor from the  
shock when she answered the door-  
bell and found there the man she  
had thought dead.

The overjoyed woman now wants  
to know what to do about the body  
she caused to have buried in Cypress  
Lawn cemetery.

## BEATTIE'S FATE IS BATTLED OVER BY ELOQUENT LAWYERS

### CHESTERFIELD COURT HOUSE, Va., Sept. 8.—Hoping to place the fate of Henry Clay Beattie, Jr., in the hands of the jury tonight, Judge Watson convened court earlier than usual today. Attorney Harry Smith, Jr., chief counsel for the accused wife slayer, began his argument at the opening of the morning session.

He followed Prosecuting Attorney  
Wendenburg. These men are regard-  
ed as the state's best pleaders. The  
court room was packed.

Beattie showed no emotion as the  
arguments progressed.

"We are making good progress," he  
said today. "I have not the slightest  
fear that the jury will bring in a ver-  
dict of guilty. It may disagree, and  
it does I will be acquitted at the  
second trial."

Attorney Smith made one state-  
ment causing quite a stir in the court  
room.

"A man constituted as Beattie is  
might have committed this horrible  
crime in a fit of rage," he said. "Good  
men have gone mad with anger be-  
fore, but the commonwealth would  
have you believe he calmly planned  
and pondered the crime for days.  
They would have you believe that  
with so horrible a plan in his brain,  
he went about in his daily life for  
three days. It is inconceivable. The  
man committing that crime was an  
idiot. He chose a spot on the most  
traveled road about Richmond."

## FISHER DENIES DISAPPOINTMENT IN ALASKAN COAL

SEATTLE, Wash., Sept. 8.—Re-  
ports that he had declared himself  
dissatisfied with Controller Bay as a  
harbor and that on his Alaskan trip  
he had found coal there of poor qual-  
ity, was denied here today by Wal-  
ter Fisher, Secretary of the Interior.  
Secretary Fisher said he would not  
at this time, announce his opinion of  
the situation.

### NEGRO MURDERER YET FREE; BELIEVED HAS MADE GETAWAY

gro murderer of Mrs. Melvina Har-  
kins, killed at her ranch home near  
Compton, is still free. Although the  
officers predict his arrest shortly, it  
is generally believed that the negro  
has made his getaway.

**THOUSANDS OF CRAWFISH**

## WEDDED EARLY IN MORNING; TROUBLES

Los Angeles Couple Come in  
Balky Machine and Rouse  
Slumberers

### JUSTICE AND CLERK LEARN FEW THINGS

Think It Will Be Best to Han-  
dle Midnight Marriages  
By Proxy

If the Car of Matrimony travels no  
smoother for Myron Bullock and Eva  
Liebenow, principals in a romantic  
early morning marriage here, than did  
the automobile in which they  
made the wedding journey, then their  
tour through life will be a tempestu-  
ous one.

About 1 o'clock this morning Jus-  
tice of the Peace Cox was roused  
from the deep sleep which comes to  
the man of a clear conscience by an  
insistent ringing of his telephone  
bell. When he had finally resolved to  
leave his warm covers and satisfy  
the clamor a voice was heard to  
say:

"We are down at the garage. Can  
you come to the Court House and  
marry a couple?"

"Well, it's pretty late; have you got  
a license?" asked the judge.

"No; we want you to help us get a  
license. You know me; you married  
me about a week ago, and I told you  
I would bring you another couple  
soon. We will come for you in the  
automobile."

Justice Cox communicated with  
County Clerk Williams and the latter  
consented to issue the license. Jus-  
tice Cox told the party to come to his  
house, and proceeded to get into his  
clothes. The automobile came along  
shortly, making a noise which caused  
Constable Squires, in his home two  
blocks away, to believe that a large  
party of motorcyclists was passing  
through on a run. Arrived at the  
court house the candidates for mari-  
mony gave their names as Myron  
Bullock, aged 21, of Los Angeles, and  
Eva Liebenow, aged 18, of Phoenix,  
Ariz. Accompanying them were Mr.  
and Mrs. Lawrence Walton of Los  
Angeles, who were married by Jus-  
tice Cox August 28. The justice per-  
formed the ceremony in his happiest  
style, and then proposed to Clerk Wil-  
liams that they walk home.

"Oh, no," said one of the party.  
"We'll take you home in the ma-  
chine."

The auto, which was a seven-pas-  
senger affair, had been taken to the  
garage at Fifth and Broadway to be  
filled with gasoline and oil. The  
party proceeded to the corner, and  
for half an hour the Justice and the  
Clerk stood on the corner shivering  
in the fog, not being any too well  
equipped with clothing. Finally the  
machine was ready, and the driver  
said:

"Now, this machine won't start un-  
less we push it, and the whole party  
of men got behind the big machine  
and proceeded to stomp their sluggish  
blood by tramping it along the as-  
phalt."

After the machine had gone a few  
feet it gave one great cough and was  
silent. The crowd pushed it a few  
feet further. It gave one great cough  
and was silent. The men pushed it a  
few feet further, and then repeated  
the process, progressing in this way  
they reached the corner of Third  
street in half an hour, according to  
Justice Cox, in two hours and a half,  
according to Clerk Williams, who  
was the more thinly clad of the two.  
Finally the engine consented to run  
and the two officers were taken to  
their homes. The last seen of the party  
the machine was proceeding slowly  
out Main street, making a noise  
which was likened to a thrashing  
machine and a steam riveter engaged  
in deadly combat.

Clerk Williams contemplates em-  
ploying a deputy for midnight mar-  
riages. Justice Cox thinks possibly  
he can arrange to turn over the care  
of his office between the hours of 10  
p. m. and 6 a. m. to Justice Fullerton.

### SUGAR SOARED TO HIGHEST MARK OF TWENTY YEARS. WHY?

NEW YORK, Sept. 8.—Sugar in all  
markets of the United States reached  
the highest point yesterday in twenty  
years. Within two months there have  
been 17 advances in the price to Amer-  
ican jobbers by the American Sugar  
Refining Company and the independ-  
ents. According to the reports there  
is a "gentlemen's agreement" between  
them.

Two months ago granulated was  
selling retail at 19 pounds for a dol-  
lar. Under the present wholesale  
price it probably will retail at about  
13½ pounds for a dollar.

The increase at this season of the  
year will tend to advance the cost of  
all preserves.

## GOMPERS COVERS WIDE GROUND IN ADDRESS

Defends Recall of Judges—Scores Meth-  
ods In Mc Namara Case—Utters  
Warning To "Big Business"

OAKLAND, Sept. 8.—A justifica-  
tion for organized labor's criticism  
of the courts for their anti-labor ap-  
plication of the Sherman law; a de-  
nunciation of the methods of the de-  
tectives in the McNamara case; and  
a warning to "Big business" that it  
is making a fatal mistake in opposing  
labor organizations, were features of  
an address made today by Samuel  
Gompers, president of the American  
Federation of Labor.

**The Recall of Judges**  
Referring to the initiative, referen-  
dum and recall, Gompers declared  
that he was glad of the progress  
made toward securing those provi-  
sions for the people. He declared that  
labor had stood twenty-five years for  
the recall, and had used it in its own  
sessions.

"How long," he questioned, "if we  
had the recall would such judges as  
Wright and Hanford retain their  
places? It is a well-known fact that  
any lawyer will accept any side of a  
case if the fee is large enough. Our  
judges come from the front ranks of  
our lawyers. How do they become  
sanctified when they ascend the  
bench? Jurists on the Federal  
benches are dependent on the corpo-  
rations for their appointments and  
there is not one of them but has  
served corporate wealth after corpo-  
rate wealth has given him his job."

"Big business," he said, "is com-  
pletely organized, and it is manifest-  
ly illogical that big business should  
deny our right to similarly organize.  
The purpose of big business is to  
crush the labor movement, and it  
may be expected to do anything it  
can to outlaw labor."

**The McNamara Case**  
Referring to the McNamara case,  
he said:  
"This business of men-stealing by  
Will and J. Burns and other detec-  
tives has got to stop. Never have you  
heard of a Rockefeller, an Astor, a  
Vanderbilt, or a Morgan being im-  
prisoned when charged with crime. If  
Burns is so sure of his evidence  
against these men why did he steal  
them away as he did? The Trust was  
unable to buy J. J. McNamara, so  
it is trying to hang him."

"The labor movement does not de-  
pend upon crime for its success.  
Crime is not only abominable in it-  
self, but the labor cause does not  
need it. Murder is indefensible, and  
crime is unpardonable. We are going  
to assume the McNamaras are inno-  
cent, because we know why they are  
charged with this crime."

**Warns Big Business**  
"I warn the employers association,  
that are fighting the labor unions,  
that they are making the greatest  
mistake of their existence. It would  
be far better for them to meet the  
unions rationally and treat with them.  
Unionism they can never extermi-  
nate."

## TAFT TOLD 40,000 PEOPLE OF PEACE TREATY IMPORTANCE

HARTFORD, Conn., Sept. 8.—Scor-  
ing the majority of the Senate Com-  
mittee on Foreign Relations for its  
"limited and narrow view" in regard  
to that body's power to make treaties,  
President Taft in his address at the  
State Fair at Charter Oak Park yester-  
day afternoon pleaded vigorously  
for the adoption of the proposed ar-  
bitration pacts with Great Britain and  
France, warning up to his subject to  
such a degree that he forsook his  
manuscript to argue with his 40,000  
hearers.

"The treaty-making power under  
the Constitution, it has been decided  
by the Supreme Court," he said, "is  
not in the hands of the Senate. It is  
one of the broadest powers conferred  
by the Constitution. Certainly it is  
not in the interest of the cause of  
peace that the power should be limit-  
ed in any such way that other gov-  
ernments may make treaties of this  
kind and we may not."

"I call your attention to the unfor-  
tunate consequences, not only to our-  
selves, but to the whole civilized  
world, not only for today, but for  
ages to come, if the final adoption of  
this reasoning by the Senate commit-  
tee is to prevail."

"Steadily throughout the world the  
burden of the creation of armies and  
fleets has grown heavier and heavier,  
steadily the competition has grown  
more fierce that is crushing the life  
and the hopes of the peoples."

"But steadily, too, and of late even  
more rapidly, has grown the hope that  
an escape from these burdens may  
be found, and that in some measure  
at least the peaceful methods of set-  
tling disputes among individual men  
may obtain among nations. I say,  
let us not be too extravagant in our  
dreams and our prophecies, and yet  
who can say what the end of such a  
movement, of such aspirations, may  
be?"

"Now, wherever good men and  
women the world over are looking  
and praying for the dawn of this great  
day of peace, their eyes turn first  
with hope and confidence to the great  
republic of the West, to the land  
whose ideals are of peace and justice,  
industry and freedom, to the land  
which more than any other has used  
the peaceful method of arbitration  
with other nations."

"In this great movement we are the  
hope of the world. These hopes by the  
proposed narrow construction of the  
Senate's power to make a treaty we  
are now to strike down. To the men  
and women who are struggling and  
longing we say 'look not to us for  
leadership. We cannot even follow.'"

"For, remember, if the Senate can-  
not now bind us to abide the judg-  
ment of an arbitral court as to wheth-  
er a question is justiciable it can never  
bind us, and if the Senate cannot  
bind us, the nation cannot bind us."

"And this peace loving people is  
forever incapable of taking a step  
along the great path which all the  
world wishes to tread, and along  
which all the world thinks America is  
best fitted to lead."

### BLACKHAND WARNS DEADLY VENGEANCE

Fires Bomb at Door of Lead-  
ing Italians Following  
Costable's Arrest

NEW YORK, Sept. 8.—With Guise-  
pe Costable, who is said to be the  
active head of the Blackhand in New  
York, under arrest, the police today  
were stirred to fresh activity by the  
explosion of a bomb in front of the  
office of prominent Italian bankers  
and steamship agents in the heart of  
the Italian quarter.

Today's explosion is regarded as a  
threat of vengeance if Costable's  
countrymen dare to testify against  
him.

### CRUISERS OF THIS AND OTHER NATIONS TO AID

Situation in Rioting District of  
Szechuen Is Critical; Mis-  
sionaries in Peril

### WASHINGTON, Sept. 8.—

The State Department today  
telegraphed to Admiral Murdock  
at Woo Sing to use the  
American cruisers in the Ori-  
ent for the protection of the  
American citizens in the riot-  
ing district of Szechuen, China,  
where missionaries have been  
threatened. Other nations are  
also dispatching cruisers to  
the aid of their subjects.

American Charge d'Affairs Williams  
at Peking, cabled the State Department  
today that the situation is critical. He  
reports that shops, factories and  
schools have been closed, and that  
the people in Szechuen refuse to pay  
their taxes. The tax offices have  
been destroyed, and many officials  
have resigned.

The Chinese foreign office has as-  
sured the American legation that pro-  
tection will be given to foreigners.

## ARCHIE MC FADDEN PASSES AWAY AFTER A BRIEF ILLNESS

Archie McFadden passed away last  
evening at 8:45 o'clock, at his home  
on Lyon street, after a short illness  
caused by cerebral hemorrhage.

Mr. McFadden was born March 3,  
1835, near Delhi, N. Y. His parents  
were natives of Scotland. His mother,  
Effie Lamont McFadden, was an aunt  
of Daniel Lamont, Secretary of the  
Treasury under Cleveland.

On Sept. 27, 1867, in Delaware  
county, N. Y., Mr. McFadden was  
married to Bettie Christy. In 1875  
the family moved to California, and  
have resided at Santa Ana since that  
time, living at the Lyon street home  
since 1888.

Mr. McFadden was the fourth of a  
family of eleven children, all of whom  
are living except himself, the oldest  
being 82, Mrs. Adams of De Lancy,  
N. Y. He is survived by his wife, two  
sons, John and William, and three  
daughters, Jeanette, the city librarian,  
Effie B., a teacher in San Francisco,  
and Elizabeth, a teacher in the State  
Normal at San Jose, all of whom were  
at home at the time of the passing  
away of the deceased.

Mr. McFadden has lived at Santa  
Ana for thirty-six years. As a hus-  
band, and father, and neighbor and  
friend, he was loved and respected.  
He has done his part well in the de-  
velopment of Santa Ana and Orange  
county. He was a charter member of  
the United Presbyterian church, and  
his relations to church and state and  
business have exemplified the highest  
Christian ideals.

The funeral will be held at the fam-  
ily home, 704 Lyon street, on Satur-  
day at 2 p. m.

### POPE AGAIN ILL AND UNEASINESS FELT AT VATICAN

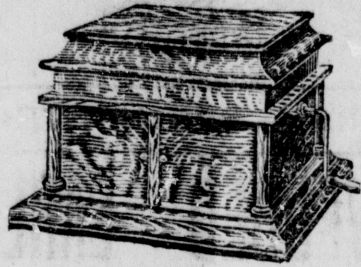

ROME, Sept. 7.—There was great  
uneasiness in Vatican circles last  
night over the condition of Pope Pius  
X, his Holiness having suffered a re-  
lapse Wednesday night. So serious  
is his condition that Professor Mar-  
chavita has been asked to resume his  
daily visits. While it is announced  
that the relapse is due merely to a  
recurrence of the gouty symptoms, it  
is learned from an undoubted authority  
that the Pontiff is suffering from  
uraemic poisoning.

The first indication of the relapse  
came Wednesday afternoon when the  
Pontiff complained for the first time  
in several weeks of severe pains in  
his right knee. Prof. Peccati found  
the knee greatly swollen. This con-  
dition, in conjunction with the ad-  
vanced age of the Pontiff, and his de-  
bilitated condition, are regarded in a  
very serious light by the papal phy-  
sicians.

### DEATH COMES TO A.J. WOOD

Well Known Citizen Stricken on the Street and Died a Few Hours Later

Allen J. Wood, one of the best known citizens of Santa Ana, died at his home, 841 North Broadway, at 9:30 last night, after a short illness. For the past three years Mr. Wood had been in failing health, and it was realized that the end was a matter of a short time, but yesterday he was able to be around as usual, and in the afternoon was sitting in front of a house on South Main street. About 4 o'clock he was seen to fall forward, and when friends rushed to his assistance was found to be unconscious. He was taken to his home, where the end came a few hours later.

Mr. Wood was 71 years of age and

had been a resident of Santa Ana for over twenty years. For fourteen years he was proprietor and manager of a livery barn at Fifth and Sycamore, but was compelled to retire from this business some time ago on account of his health. Mr. Wood always took an active interest in public affairs, and had been connected with many movements which made for the development of the city. He was known as a sterling citizen, and had a wide circle of friends.

Mr. Wood was a member of the Masons and the Fraternal Aid Association. He leaves a wife and three children, Ernest E. and Miss Mary L. of this city, and Abner Wood of San Diego.

### NOT SALTS, OIL OR PILLS, BUT CASCARETS

No Odds How Sick Your Stomach: How Hard Your Head Aches or How Billious—Cascarets Make You Feel Great

You men and women who somehow can't get feeling right—who have an almost daily headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backaches and feel all worn out.

Are you keeping clean inside with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets work while you sleep; cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gasses; take the excess bile from the liver and carry out of the system all the decomposed waste matter and poison in the intestines and bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your entire family feeling good for months. Don't forget the children. They love Cascarets because they taste good—do good—never gripe or sicken.

### MACHINE TO HARVEST BEETS

French Inventor Says His Contrivance Will Do Work of 100 Men

Los Angeles Times: Jules Massart arrived at the Angelus last night in a high state of French and excitement. Massart, who is the inventor of a machine that harvests and strips sugar beets and will do the work of 100 laborers in a day, had been robbed on his way from Chicago to Los Angeles of his purse containing all of his ready cash, his blank check book and his letter de credit.

Except for this unfortunate experience, he would have been at Oxnard today giving demonstration with his machine, but on account of the robbery he was compelled to stop here in order to open up financial negotiations through the French Consul.

With the letter de credit and the blank checks the thief, if clever enough, might with quick action raise at least \$5000, as the letter de credit was good for 25,000 francs. Consequently Monsieur remained in a state of financial uneasiness until he could stop payment on the forged checks.

Massart was a lawyer in Belgium until the magnitude of the sugar beet industry in France and Germany so attracted his attention that he became a farmer, relinquishing his lucrative practice for the business of growing beets, in which he saw a fortune.

The one stumbling block in the way of that fortune was the cost of labor, for even in countries where labor is so cheap that bread riots are common, the cost of harvesting the beets was a great drawback to the farmer.

Massart set to work to overcome this handicap by a labor-saving invention, and after ten years of experiment he finally produced the beet harvester, which, in the last year, he has introduced throughout France and Germany with the greatest success. This machine attracted the attention of beet-growers at Oxnard, and Massart, at their solicitation, shipped a machine to California and is now on his way to place it in operation in the Oxnard fields.

Why Santa Ana business men should do their business with the

### California National Bank of Santa Ana

BECAUSE its shareholders have large holdings in the city and surrounding country and their interests are mutual.

BECAUSE the strength of this bank lies not alone in its capital and surplus, but in the character and financial responsibility of the men who conduct its affairs.

BECAUSE its business is governed with that conservatism, combined with enterprise and up to date methods, which make for soundness and satisfactory banking service.

Not only does the machine harvest the beets, Massart asserts, but it cuts off the tops and bottoms, segregating the beets from the refuse. This gives the farmer the waste for his cattle and saves him the expense of extra freight. It also saves the factory waste labor. The machine requires only two horse power and will do the work of a sixteen mule machine.

Massart says that the American beet, in many sections, is greatly superior to the best beets of Europe, as the maximum percentage there is about 16 per cent, while in this country it is 20 per cent, and 18 per cent is not at all extraordinary here.

### EASILY DECIDED

This Question Should Be Answered Easily By Santa Ana People

Which is wiser—to have confidence in the opinions of your fellow citizens, or people you know, or depend on statements made by utter strangers residing in far-away places? Read the following:

F. P. Fraser, 1642 Regent St., Santa Ana, Calif., says: "I have known of Doan's Kidney Pills for three years. For a long time I was afflicted with weak kidneys. I suffered from a pain in my back and was caused much annoyance by too frequent passages of the kidney secretions. Finally I commenced using Doan's Kidney Pills and it did not take this excellent medicine long to remove the pains and other troubles. I feel that I have every reason to give Doan's Kidney Pills my endorsement." (Statement made March 8, 1907.)

**Confirmed Proof**  
On Aug. 11, 1909, Mr. Fraser was interviewed and he said: "I still hold Doan's Kidney Pills in high esteem and I gladly confirm my former endorsement of them. I have been free from kidney complaint since this remedy cured me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

### BANK DEPOSITS SHOW GREAT GROWTH

HUNTINGTON BEACH, Sept. 8.—The statement of the First National Bank of this city, just issued, shows a remarkable gain in deposits and loans, the figures of the former having almost doubled since last year's statement and the amount of the latter being also nearly double. As this is the only commercial bank in this city its statement is a fair index of the growth of business in Huntington Beach.

The grammar school opens here on September 18 with a faculty of seven teachers as against five last year, and with a probable enrollment of nearly 300 pupils as against 200 last year. The high school, which opens next Monday, also has an increased faculty and will include music in the curriculum—a complete innovation as it has not been taught since the school was opened nearly seven years ago. Its enrollment will also be largely increased.

## Lucas' Cash Grocery

Now Open for Business

In New Store, Cor. Fourth and Broadway.

Many years experience in the grocery business have forced upon me the conviction, that much of the expense of conducting a modern grocery can be eliminated and satisfactory service still be maintained.

Take the expense of a SOLICITOR. His salary and the upkeep of a horse and wagon means a daily expense equal to the gross profits on \$30.00 worth of goods—THE CONSUMER MUST PAY THIS.

A general credit system in the grocery business adds another big item of expense—that of BOOK-KEEPING. THIS IS ALSO PAID BY THE CONSUMER.

By conducting a cash business, doing away with solicitors and bookkeepers, and giving my patrons the advantage of lower prices on all goods partially solves the question of the "High Cost of Living."

## MARTIN SUES FOR HIS PAY

Aviator Gave Brawley Fine Exhibition But the Committee Didn't Come Through

Glenn L. Martin, who made aeroplane flights at Brawley during the melon festival July 3 and 4, has brought suit in the Imperial County Superior Court against F. F. Parmelee, as a representative of the carnival committee, for the \$1500 which the committee agreed to pay for flights on two days, and which they have so far failed to settle, although Martin complied with all the terms of his contract.

The agreement between Martin and the committee in charge of the celebration was that Martin should receive \$1500 for his services, half of this to be due when his plane was on the ground and ready for flight, the other half to be paid in case he made successful flights on two days.

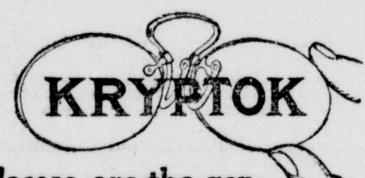

Owing to atmospheric conditions Martin found it very hard to fly at Brawley, and on the first day was compelled to land after he had been in the air only a short time. He was unable to choose a good landing place, and in coming to earth injured the machine so that he could use it no more that day. Repairs were made, however, and the following day Martin made several short flights and in the evening gave a very fine exhibition of flying.

When the time came for settling the committee had convinced itself that it did not get its money's worth, and offered to compromise with Martin for half the contract price. This was refused, and the committee finally came up to three-fourths the agreed price, or \$1125. This was also refused, and when the committee refused to settle in full Martin brought suit. Parmelee, the defendant, signed the contract individually for the committee, and is therefore the responsible party. He is a banker and business man of Brawley.

Scarborough & Forgy of this city are attorneys for Martin.

## CAUGHT AFTER THREE YEARS

Mexicans Wanted for Murder in Ventura County Landed Here Last Night

Two Mexicans wanted for a murder committed in Ventura county nearly three years ago were run to earth in Santa Ana last night and placed under arrest.

Yesterday evening Deputy Sheriff Sepulveda of Los Angeles county arrived here looking for Jose and Gaudalope Marin, brothers, who were wanted in Ventura for the murder of a man named Beltran. The Ventura authorities had received information that the men were somewhere in the vicinity of Santa Ana, and had put the Los Angeles authorities on the case.

Sepulveda located the men living on Regent street, in the southeastern part of the city, where they had been going under the name of Ferris. He placed them under arrest, and took them to the county jail, where they were kept until the 11 o'clock car left for Los Angeles, when Sepulveda took his prisoners to that city.

Sepulveda knew nothing of the details of the crime, or as to how the men had been traced. Manuela Provenca, an aged Mexican woman who was taken up on the streets a few weeks ago in a demented condition, had been cooking for the men at the Regent street house.

## THINGS DOING IN REAL ESTATE AT LAGUNA BEACH

Also Quite a Bit of Social Activity—Something of an Art Exhibit

LAGUNA BEACH, Sept. 8.—Some of the beauties and charms of Laguna Beach are pictured in an art exhibit at the Laguna Beach hotel this week. The paintings are the work of Mrs. H. T. Jenkins, head of the School of Art and Design of Pomona College. The subjects chosen by Mrs. Jenkins are not only those showing the picturesque coast with its points of rocks and beautiful coves, for she has chosen some scenes on shore in which the eucalyptus is featured.

Residents of this place are showing their confidence in the future of the beach by buying real estate in addition to what they already hold. For the past week there has been unusual activity in the real estate line. The Laguna Park and Water Co., with the energetic Col. Coulter at its head, has had a number of interested visitors on its fine tract. Yesterday L. W. Hemphill and J. F. Spotts of Orange, were here with E. J. Burnsted and S. A. Burrows of Los Angeles on a real estate deal. The party took dinner at the Laguna hotel.

Elmer E. Jehraus, for a number of years one of the most prominent boosters and real estate men of Laguna Beach, came here from San Diego a week ago on a visit, and things in the real estate line looked so good to him that he concluded to remain for the winter. He has sold seven lots on Laguna Cliffs since he got here, and he says inquiry and interest is most pleasing.

A valuable yearling colt belonging to the Foote came near cashing in as the result of getting mired in a mud-hole in the pasture back of the town. The colt had been in the mud for several days, and was nearly starved to death, when he was discovered, dragged out and hauled to the stable on a sled. The animal was too weak to stand alone. He probably can be saved. He is out of McFadden's stallion and has the making of a \$300 horse in him.

While going down a grade at too great speed, an automobile driven by P. R. Collins of Fullerton went wrong in some manner and a catastrophe was narrowly averted. The automobile went dead, and the party was brought to Laguna by wagon.

Personals  
R. M. Simon and wife of Chicago, arrived yesterday to spend the winter at the home of the artist, George Gardner Simon, and wife at Arch Beach. The two men are brothers. Today they motored to San Juan Capistrano.

A. F. Call and his family left yesterday for their home at Corona. They will return to their cottage here for short stays this winter.

Miss Kate Overton of Arch Beach, is at Riverside for a visit of a few days.

Miss Edna Filkins of Riverside will move into her new cottage at Arch Beach.

Dr. W. G. Terry and his family of Los Angeles, have moved into their new cottage at Arch Beach.

C. H. Lowe motored to Riverside yesterday to stay a few days before finishing the summer here.

Rev. Horace Porter and family of Riverside, are occupying the Chapman cottage on the Cliffs.

Mrs. Helen Le Beuf is occupying her cottage here for a week.

Mrs. H. G. Hull and children and mother, Mrs. Skinner, will return to their home at Santa Ana tomorrow.

## A SPOTLESS TOWN

We may not be ready to "go all the way" with J. Stitt Wilson, the Socialist mayor of Berkeley, but we ought to be ready to go all the way with him in the campaign he is leading for a spotless Berkeley. Or, better still, we ought to "go it alone" as a community, or all together as individuals and make Santa Ana clean.

The cleanliness and spotlessness here referred to are not figurative or moral or political. They are literal and physical. All that Santa Ana or any other town needs to make it spotless is a leader. Berkeley is going to be a spotless town because Mayor Wilson has taken the lead armed with a hoe and a rake.

At the outset of the campaign Governor Johnson has expressed absolute confidence that the people will be true to themselves, and on October 10, adopt the initiative and referendum and the recall by overwhelming majorities. Such an expression from Hiram W. Johnson carries more weight with the people than the ordinary political forecast because of his conservatism in such matters. On the night before the primary election of last August Governor Johnson predicted that he would be nominated by 35,000 plurality. He won by 47,000. On the night before the November election he predicted that he would be elected by 10,000. He won by 23,000.

The Southern Pacific political bureau, reinforced by every corrupt interest in the state, is concentrating its attack upon the two proposed constitutional amendments providing for the initiative and referendum and the recall. In these two measures is involved the future political independence of the people of the state, and their enactment means placing the power of government in the hands of the people. The passage of the recall means that the power of the Southern Pacific over certain courts of the state will be broken, and the people will have an opportunity to kick out of office a corrupt or incompetent judge.

## Bounding Health

Every man and woman has an inherent right to—and can have and enjoy—the blessings of vigorous health and strength—if they will utilize what nature and science have provided for the rearing and up-building of the human body.

The wonderful new herb remedy that is revolutionizing the treatment for disease is Brackett's System Builder, a "pleasant-to-take" tablet, containing no habit-forming drugs—The result of Mr. Brackett's twenty years' experience filling doctors' prescriptions and coming in contact with thousands of sick people. The proof of its merits are the thousands of cures it has effected. Brackett's System Builder is a nature in building vigorous bodies by purifying and renewing the blood, thereby strengthening the heart, improving the circulation—overcoming nervous weakness, debility, loss of ambition, loss of vitality, by revitalizing, reinvigorating the brain and nerves to their highest efficiency, thus overcoming all chronic disorders of the system. For sale at first-class drug stores, 50c per box, or sent prepaid upon receipt of price by Robert A. Brackett Co., chemists, Los Angeles, Cal. ## Corrupt State Printer Attempts to Levy Tribute On Employees Of Office

SACRAMENTO, Sept. 8.—An attempt to inaugurate the political methods of Abe Ruef and P. H. McCarthy in the state printing office has been severely repulsed, and from the outlook at the present time it is more than probable that State Printer W. W. Shannon will have to pay out of his own pocket for whatever legal assistance he needs in defending himself on the charge of defrauding the school children of California for the benefit of the Zellerbach Paper Company, the H. S. Crocker Company and the E. J. Shattuck and George D. Graham Ink companies.

The state printer levied tribute on the school children of California to pay outrageous profits to the favored contracting firms, and an attempt has now been made to levy tribute on the employees of the printing office for a defense fund for Shannon. Half of the employees have revolted, refusing to bring upon themselves the stigma which attaches to those who have taken advantage of school children to enrich greedy men.

Andrew F. Smith, general foreman of the state printing office, and Shannon's right hand man, within the last

couple of days approached several of the printers in the composing room and in the press room of the printing office with the suggestion that they contribute \$5 each toward a fund to employ attorneys for Shannon. Some, seeing the alternative of being "fired," contributed, but two in particular who hold their jobs by right of efficiency and hard work flatly refused.

The scheme as outlined was to collect from all employees of the printing office, of whom there are about 100. When the two independent spirits rebelled, however, the scheme was given a severe jolt by the big majority of the employees and there is a probability that the undertaking will be abandoned. Many of the printers are expressing their disgust with the methods under which competent men have been thrown out of jobs to make room for political hangers-on of Ruef, Walter Parker and Jere Burke.

Governor Johnson is determined that those who have robbed the school children shall answer, and additional sensational developments are looked for when the senate investigating committee resumes its hearings on the charges made by the State Board of Control.

## Movement Started To Bond Kern County For \$2,000,000 For Roads

BAKERSFIELD, Sept. 8.—There is a movement on foot to start a good roads campaign with a view to bonding the county in a sum not to exceed \$2,000,000 for the purpose of constructing laterals to the state's \$18,000,000 highway, which will pass directly down the San Joaquin via Fort Tejon canyon, Los Angeles and San Diego.

In an informal way the proposition has been discussed with members of the Board of Supervisors, but it may not come officially before them before a later autumn meeting.

Incidentally there is being made an effort to get all the automobile owners in the county—about 800 of them—in a compact organization for

the purpose of agitating for good roads. They would have an important influence in carrying a bond election.

The county is in excellent financial condition and the treasury carries a large surplus, notwithstanding the heavy bills that have been paid on court house construction account. Bonds to the amount of a couple of millions would sell at a premium.

The principal workers for good roads will become openly active as soon as the routing of the state highway is announced. If the state spends a million in Kern County and the county taxes itself for two millions more on long term bonds the improvement in facilities for travel should be quite extensive and likewise permanent.

Teams who have been here will prove, and the play of their opponents indicates that they will give the local stars a hard run for the honors.

FALLS 20 FEET, AND MAY DIE  
Laborer in Sugar Factory Probably Fatally Hurt in Plant

ALAMITOS, Sept. 8.—Jose Sauriez, a Mexican youth, 20 years of age, was seriously if not fatally, injured early this morning when he fell headlong to the ground a distance of 25 feet from the top of the pulp dump of the Alamitos Sugar Company.

The accident happened before daybreak, his companions missing him from the top of the dump, but paying no attention to the matter until daylight revealed his unconscious body lying face downward on the ground. He was taken to the Seaside Hospital in Long Beach, where an examination revealed the fact that he had sustained a concussion of the brain and probable internal injuries from which he may not recover.

Sidewalk Rider Fined  
D. E. Flower, a barber, was arrested last night for riding on the sidewalk. This morning he paid a \$5 fine in Recorder Willson's court.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result and unless inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## THE SANTA FE'S ELEGANT NEW THROUGH TRAIN

The new Santa Fe-de-luxe train to Chicago, which goes on its run in December, is an evidence of the growth of travel between California and the East and also of the increasing demand for faster time and more luxurious accommodations.

Only a few years ago the Drawing Rooms in Pullman cars ran across the continent empty, as few cared to pay the additional charge for the privacy secured, but in recent years the Drawing Room is the first to be sold and there are not enough of them. Then the Compartment Cars were added to the California Limited in a measure to satisfy the travelers, and last year the train itself had to be run in two and sometimes three sections a day.

Now comes the new once-a-week train which will run faster and accommodate at the outside sixty people each train.

The schedule saves practically a business day Los Angeles to Chicago or New York, as one can leave Los Angeles at six in the evening and be in Chicago at eleven in the morning of the third day.

There is an extra charge of \$25.00 on this train and in addition to the higher speed and the exclusiveness, there are furnished stenographers, barbers, tailors, ladies' maids, baths and other accessories found in the best clubs and hotels.

Of course the California Limited will continue on her comfortable schedule without any extra charge.

## GATES GAVE GOOD SUFFRAGE TALK

Mrs. Seward Simon Told Garden Grove People of Voting Women in the World

The suffrage meeting held last night in Garden Grove was a success, both in point of attendance and good speakers. Senator Lee C. Gates of Los Angeles gave an address that was highly educational to voters concerning the more important amendments to the state constitution to be voted upon the tenth of October.

Referring to the amendment providing for the adoption of the initiative, referendum and recall, Mr. Gates explained their meaning and bearing upon political conditions, showing the importance of the measure to be voted upon, and the necessity of its adoption.

The equal suffrage amendment, said Mr. Gates, was of more importance than all the others. It embodied the awakened conscience and sense of justice of the manhood of California. Its success means much for the stability and permanence of the home, the better protection of the boys and girls when they go out of the home, and a refining and elevating moral influence in political and governmental affairs.

Mr. Charles Farwell Edison sang "The Suffragette," which evoked considerable mirth until the last stanza, when the funny part suddenly disappeared and the sensible, truthful side of the subject developed.

Mrs. T. A. Winbiger of Santa Ana, sang the "Song of Victory" in a most charming manner, which elicited much applause and hearty appreciation. Mrs. T. J. McElree accompanied.

Mrs. Seward Simon, of Los Angeles, president of the Political Equality League, gave an interesting talk upon the status of women in this and other countries. Mrs. Simon told of the beneficial results of suffrage in the five states where women already have the ballot and of what they have accomplished for good in the countries where they fully participate in the government on an equality with men. The speaker referred to New Zealand as the ideal commonwealth, where women have voted for nearly twenty years. Australia and Finland also have full suffrage, and in the latter country—progressive little Finland—twenty-seven women were elected to parliament last year.

The Garden Grove Y.M.C.A. Band

furnished excellent music which was very much enjoyed. Mrs. Estelle Harper, at the organ, led in singing the popular campaign song, "Another Star," after which refreshments were served and a pleasant social half hour closed a most enjoyable evening. Mr. Geo. F. Reyburn of the Garden Grove Suffrage Club, presided.

## STATE SOCIETIES TO PICNIC TOMORROW

The second annual picnic of the Federation of State and Provincial Organizations of Southern California will be held tomorrow at Sycamore Grove, Los Angeles. It is to be an all day affair, with a morning devoted to social pleasures and a program of speaking in the afternoon. Among the speakers will be Senator John D. Works, Mayor Alexander, Frank G. Tyrrell and Mrs. Lucy S. Blanchard. A large attendance is expected.

## THE MEN'S EQUAL SUFFRAGE LEAGUE ARRANGES RALLY

The Men's Equal Suffrage League has arranged for a rally next Friday evening (one week from today), at which State Senator Lee C. Gates, and others will speak.

The place of meeting has not yet been decided upon, but will be announced in due season.

## GRANDMOTHERS' BEAUTIFUL HAIR

Color and Beauty of the Hair Preserved with a Harmless Remedy Made from Sage.

Druggists everywhere comment on the fact that they are selling large quantities of sage for making old-fashioned "sage tea," such as was used by our grandmothers for promoting the growth of their hair, making it fluffy and beautiful and restoring its natural color.

The demand for this well-known herb for this purpose has been so great that one manufacturer has taken advantage of the fact and has placed on the market an "ideal" "sage tea," containing sulphur, a valuable remedy for dandruff and scalp rash, and imitations, called "Wash of Sage and Sulphur Hair Remedy."

The manufacturers of this remedy authorized druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, Rowley Drug Co.

## FOWLER WILL FLY FROM LOS ANGELES

Frisco Fails in Pledge of \$10,000 for Winner of Sea-to-Sea Aerial Flight

SAN FRANCISCO, Sept. 8.—Los Angeles will see Robert Fowler start on his transcontinental flight for the Hearst prize on account of the failure of the present officials of the Rotary Club here to carry out the offer supposed to have been made by the club several months ago to give the winner of the race \$10,000 if the start were made here.

Fowler's machine was ready to fly at 3 o'clock yesterday afternoon, as he and his corps of mechanics assembled it in two hours from the time it was taken into the stadium in Golden Gate Park. At 5 o'clock his manager, C. Fred Grundy, told him the flight would begin from Los Angeles.

The machine will be shipped to Los Angeles this afternoon so as to be ready to start from there on Sunday. His route will be over the Salt Lake line to Ogden and Salt Lake, across the desert by way of Riverside and San Bernardino.

Judges of Air Race

NEW YORK, Sept. 8.—All points of dispute that may arise during the progress of the coast-to-coast aeroplane race for the \$50,000 prize, offered by William Randolph Hearst, will be adjusted by a committee of ten of the most notable captains of industry, publicists, military, naval and science men in America.

Those named are Hudson Maxim and B. F. Yeakum, for New York, from where Cal. P. Rodgers and James J. Ward will start next Tuesday and Wednesday; Major J. P. Fitzgerald and Thomas W. Lawson for Boston; Brig. Gen. Ramsey D. Potts and Rear Admiral Albert Ross for Chicago; Robert Marsh and Fred L. Eker, for Los Angeles.

## DOGS MUST BE MUZZLED

Anaheim Worried Over Death From Rabies—Big Price for Realty

ANAHEIM, Sept. 8.—Health Officer J. L. Beebe appeared before the City Trustees and urgently requested that the dog-muzzling ordinance be rigidly enforced. The doctor's visit was prompted by the death of William L. Lillies, who succumbed to preventable disease, as the doctor said, recently. Lillies was bitten by a young collie dog July 15 in the right thumb. He killed the dog and thought no more about it. Last week hydrophobia came on. Lillies died a few days later in great agony. The doctor said that a dog-muzzling ordinance was adopted by the City Trustees a year and a half ago. It was at first regarded as a joke. Now it is a dead letter, he says and it ought to be enforced. The board ordered the Marshal to enforce the ordinance and to kill all dogs without a muzzle.

The largest price ever paid for unimproved realty in Orange County, where agriculture has already brought the highest figures ever recorded in transfers of real estate in Southern California, is reported this week by the Orange County Realty Company.

The deal involves the sale of ten acres of land owned by Albert Koesel, to George H. Maxfield of Fullerton, for \$25,000.

The tract contains 675 late Valencia orange trees, and this season's crop is estimated at \$8000. Mr. Maxfield purchased the property of Mr. Koesel as an investment. It is regarded as one of the best ten acres in Orange County.

After being in business for thirty-nine years in Anaheim, the well-known firm of Joseph Backs and Son announces this week their withdrawal from business. During the thirty-nine years of his business career in Anaheim, Mr. Backs has borne an upright and honorable reputation. He is desirous of retiring from business, having by years of industry and frugality amassed a competence.

The question of more jail room is still exercising the mind of Marshal Kellerberger, and a temporary relief proposition was discussed at special session of the City Trustees. The Marshal reported that he now had an average of five prisoners on hand continuously, which filled the jail to its full capacity almost, and he was at a loss to know what to do with the drunks, vagrants and other gentry that the police department would be compelled to arrest during carnival week. The proposition to enclose the rear of the city hall lots with stockade ten or twelve feet high and install a rock pile therein, met with the approval of the board, and Kellerberger was instructed to select timber from the pile now owned by the city to use in its construction.

## TELLS THE CAUSE OF APPENDICITIS

The Rowley Drug Co. states that much appendicitis in Santa Ana is caused by constipation, gas on the stomach or sour stomach. These troubles are almost INSTANTLY relieved and appendicitis guarded against by taking a SINGLE DOSE of simple buckthorn bark, glycerine, etc., as compounded in Adler-Eka, the new German appendicitis remedy.

Discriminating people pronounce this bank superior in many ways.—

Also the most satisfactory and conservative institution for handling your financial affairs.

There is a reason for the wide-spread and increasing popularity and growth of this institution, whose capital, surplus and undivided profits are now more than \$350,000; Resources \$3,000,000.

Public approbation is seldom if ever volunteered. It must be commanded by superior service, infinite pains and long effort to give the people that which they desire. With this record we invite your account.

### LOS ANGELES PRODUCE MARKET

Trading was active in dairy products, but inactive in deciduous and other fruits.

Receipts of all fruits were liberal, and the quality good. Much better fruit is finding its way to the market, and most of it is fancy packed. Prices generally ruled firm, due to good demand.

The receipts of nutmeg melons were liberal, but the demand was not heavy, and many of the dealers sacrificed their holdings. Pony crates were quoted at 50 cents.

Only one box of apples was reported in from outside on change. The apple situation was unchanged. There was little demand for any of the different varieties, and the market was weak, due to heavy holdings.

Peaches were in fairly good call, with selling prices held steady.

The potato situation was unchanged. The receipts were light, and the market ruled firm to steady. Highlands were quoted at \$1.75 to \$1.85. Receipts from outside were 1736 sacks.

Sweet potatoes were weak under liberal offerings, and the indifferent attention given the market. Yesterday's quotations were \$2.50 to \$2.85 per cwt.

Figs are finding their way in on the market in good supply, and prices quoted much lower than last week. Yesterday's quotations were from 75 cents to \$1.00 a box.

Barlett pears were cheaper. Supplies were liberal, and there was no urgent demand. Much over-ripe stock was on hand.

There was a good call for muscat grapes, and the offerings were liberal. The market for eggs was firm. Storage stock was in good demand. Receipts were 251 cases.

Offerings of butter were liberal. The call was good, and prices held steady. Receipts were 56,081 pounds.

Cheese receipts were 309 pounds. The market was firm. There was a good call for northern fresh cheese.

Only four sacks of onions were reported in from outside. The market was weak.

WE HAVE all kinds of property listed with us, both city and country, which would be almost impossible to describe. If we knew just what the buyer wanted, it would be to our interest to do the very best we could to suit him.

On the streets buyers are frequently told by their supposed friends to look out for the Real Estate agents, when at the same time in many cases, they themselves are trying to get your confidence by drawing your attention to certain property which they will share in the profits of a commission.

The business we do, stands for our reputation.

The Real Estate men of this town will gladly show people that are interested what they consider their best bargains, if the prospective purchaser is not suited, we do not expect him to buy.

# NO AUTHORITY FOR WARRANTS

District Attorney Approves Auditor's Action in Refusing to Pay Motor Cops

The fact that the law gives the Board of Supervisors no authority to employ deputies for county officers was Auditor Lester's reason for refusing yesterday to honor three warrants drawn in favor of the motorcyclist officers, Jack Peters, Roy Daventport and B. Lard, who were employed as deputies to Sheriff Riddick for a time. After looking into the law District Attorney West has agreed that Lester is right in his stand.

The officers were appointed by the Supervisors to go after speed maniacs, but after serving a short time their services were discontinued when Sheriff Riddick left for the East. The warrants were for \$5 each, and were approved by the District Attorney. On this showing they were allowed by the Supervisors and ordered paid. When they came to the Auditor, however, he turned them down. When Mr. West looked up the law he admitted he had been hasty in approving the bills, and that there was

no doubt Auditor Lester's stand was right. The only recourse which the motorcops have is a mandamus suit, and it is not considered likely that this will be attempted.

In Los Angeles County warrants aggregating thousands have been dishonored by the County Auditor, who says he is ready to stand a suit rather than pay them.

Silkwood Family Ready to Settle Case Against Hunt By Marriage

Constable Squires went to Los Angeles yesterday evening and brought back C. J. Hunt, who was arrested there last week on complaint of Charles Silkwood of Santa Ana, who alleged that Hunt had induced complainant's nineteen-year-old daughter, Myrtle Silkwood, to leave home and that they were living together illegally. The first complaint was sworn to in Los Angeles County and Hunt's preliminary was set for yesterday. In the meantime Silkwood swore to a complaint here charging Hunt with the ruin two years ago of his daughter Minnie, then thirteen years of age. When the case against Hunt came up in Los Angeles it was dismissed and he was turned over to the Orange County officers in order that the stronger charge might be pressed here.

Hunt admitted the parenthood of the girl's child, but said he had lived with her at the home of her parents with their knowledge and consent. At that time Hunt had a wife, but they have since been divorced. Myrtle Silkwood made an effort to marry Hunt in Los Angeles two days ago, but the officials refused to allow the ceremony because they believed the divorce decree had not been made permanent. Hunt strenuously denied that he had ever had any improper relations with the younger girl. This morning the whole Silkwood family appeared at the county jail and wished to have a marriage performed between Hunt and Myrtle Silkwood, to be followed by a dismissal of the charge. The District Attorney said, however, that the marriage could not take place in jail, and he refused to consent to a dismissal of the case until he had looked into the charge. He accordingly fixed Hunt's arraignment for Monday. The local officers are inclined to the opinion that the second charge against Hunt was the result of spite.

## Lugsch Case Dismissed

In Justice Cox's court today William Lugsch was tried by a jury of twelve men on the charge of disturbing the peace, preferred by A. M. King. These men are employed at the sugar factory, and last week engaged in a scrap which resulted in King being fined for battery. Thereupon King filed a complaint against Lugsch.

The testimony today indicated that King had been the actual aggressor in the combat, but that Lugsch had made a dooz deal of nuisance of himself and was heartily disliked by his fellow workmen. The jury considered the case for over an hour, and then came into court and announced that there was no possibility of an agreement. The jury stood six for conviction and six for acquittal. Judge Cox discharged the jury, and following this, on motion of the District Attorney, dismissed the case against Lugsch.

The jury which tried the case consisted of John Haywood, P. J. son, Wm. McKinney, O. C. Overton, W. B. Buell, G. C. Baker, C. T. Horn, Robert Cogburn, E. E. J. W. Powers, H. M. Seymour and E. Newman.

The California Utahnite Powder Co. —This company formed for the purpose of manufacturing and selling Utahnite Powder in the State of California is owned and controlled by A. H. Bryson of Los Angeles and G. A. Whidden of Santa Ana. Patent No. 979,476, under the name of explosives, was issued on December 27th, 1910, and the gentlemen named have the exclusive territory of the state of California, to manufacture and sell the product called UTAHNITE, a powder of high efficiency, combined with absolute safety in manufacturing, transportation and in handling. They have secured a location and have ordered the necessary machinery for a ten ton plant at a cost to them of about \$4500.00, which will be in operation within ninety days. The selling price of this powder is twenty cents per pound, or \$400.00 per ton, the cost including royalty to manufacture and sell the product is \$200.00 per ton, leaving a net profit on a one ton basis of \$200.00, or for 300 working days in a year of \$60,000.00. Compare this net profit with that of our sugar company, considered the best we have for investment, according to the amounts invested in the two plants, the cost of repairs and depreciation on machinery and the difference in the amounts to be expended for skilled men to operate the sugar plant, with the powder plant, they have no expensive machinery, and no high priced help will be necessary to operate the powder plant.

This company offers inducements to the investor that will stand the fullest investigation before his money is accepted by the company, none can show larger returns for money invested with the guarantee of safety to the investor, as he will have the privilege of making his investigations for himself and can witness the demonstrations of work that this powder does under all conditions that may be required.

NO failure has been made with this powder to produce results in the many tests that have been made with it in demonstrations.

Subscriptions will be received at the Santa Ana office, 115 1/2 West Fourth street, in the denominations of \$1000.00 to \$5000.00, the latter amount being the largest that will be received from one subscriber.
